**UCITS VI Liquidity Management Tools (“LMTs”)**

The Prospectus has been updated to comply with and to clarify disclosures relating to the selection, calibration, activation and deactivation of liquidity management tools (“**LMTs**”) used by the Company for liquidity risk management purposes pursuant to Directive (EU) 2024/927 together with the delegated regulations and guidance related thereto (“**UCITS VI**”).

The relevant LMTs have been considered and selected to allow effective management of the Company’s liquidity risk under both normal and stressed market conditions in the best interests of Shareholders.

The LMTs selected for the Company for this purpose are noted below and further described in the Prospectus and Addendum:
