5. **Investment Risk disclosures**
Additional investment risks are being included in the Supplement relating to **Share Class Risk** and **Currency Hedging Risk** as indicated below.

Share Class Risk: There is no segregation of liabilities between Classes of the Fund. While the Investment Manager will seek to ensure that gains/losses on and the costs of the relevant FDI associated with any currency hedging strategy will accrue solely to the Class for which it is intended, the transactions could result in liabilities for other Classes.

Currency Hedging Risk: Hedges are sometimes subject to imperfect matching between the hedging transaction and the risk sought to be hedged. There can be no assurance that the Fund's hedging transactions will be effective. As the purpose of currency hedging is to try to reduce or eliminate losses caused by exchange rate fluctuations, it can also reduce or eliminate gains where the currency in which the Fund's assets are denominated appreciates.

6. **Other changes**
Some other minor related changes have also been included in the Supplement.
